

ImPACT Sport Concussion Testing is Back:

As we know, the research is clear: Strict concussion management and return-to-play protocol is necessary. Washington State Legislators have echoed these sentiments by strengthening laws surrounding suspected concussions. Onalaska will provide baseline assessments and unlimited post-test assessments for ALL middle school and high school athletes. This neurocognitive testing is the “cornerstone” of modern concussion management, It gives healthcare providers objective data to evaluate a patient’s post-injury condition and aids in tracking recovery for safe return to activity. Safety is a top priority for our student-athletes.

- When:** Tuesday – August 14, 2018 - we will have a second date (to be determined)
- Where:** Middle School student athletes – Elementary computer lab
High School student athletes – High School Business lab
- Time:** 3 – 6 pm
- Cost:** Free! (Onalaska School District is covering the costs)
- Who:** **All potential student-athletes for both middle school & high school**
- Why:** Baseline testing allows healthcare providers to data to treat **CONCUSSIONS**. Also unlimited follow up testing (all free for your child)
- What:** There will be paperwork requiring signatures at the labs. We will also have the required paperwork in the offices soon.
