

Too sick for school?

We miss our students when they aren't at school! But if your child is sick, please take care of them at home or make other appropriate child care arrangements. Here are some guidelines to help you know when you should ...

Send your child to school

Keep your child at home

Call the doctor

- Runny nose
- Slight cough
- No fever or vomiting for at least 24 hours

- Fever higher than 100.4 degrees
- Vomiting

- Fever higher than 100.4 degrees for more than 2 days
- Vomiting for more than 2 days
- A cold that lasts longer than 1 week without getting better
- Asthma symptoms that aren't controlled with medication. **CALL 911** if your child is having trouble breathing after using an inhaler.
